

## GRASS & BUSH CUTTING HEADS CUTTING HEADS FOR HEAVY DUTY JOBS

Grass cutting head

Bush cutting head

The wide range of cutting heads offered by Epoke® A/S covers all requirements for cutting grass, bushes and branches along country roads, edges of woods, ditches and slopes. The cutting heads are adjusted from the driver's cab, and adjustment may be changed during work independent of the driving speed.

The cutting heads are combinable with the Epoke arm systems UH 46, GH 50 and TH 75. They are easily mounted and dismantled due to the suspension plate mounted on the cutter.

The Epoke arm systems may be equipped with the Epolift system for relief of the cutting head. The result is uniform cutting, easy steering of the vehicle and less wear of both mower and vehicle.

# EPOKE GRASS AND BUSH CUTTING HEAD

(2006-08-28.BA)

## Technical data and dimensions

The Epoke cutting heads are combinable with all of Epoke arm systems: TH 75, GH 50 and UH 46.

	Bush	Grass
<b>Item number:</b>	602699	603199
<b>Max. oil pressure:</b>	280 bar	280 bar
<b>Cutting width:</b>	1200 mm	1200 mm
<b>Liters, Oilflow:</b>	90 l/min	90 l/min
<b>Working speed:</b>	0-8 km/h	0-8 km/h
<b>Self-weight:</b>	360 kg	360 kg

### Features:

Today protection of nature without the use of weed killers is the obvious choice. Using a mower from the Epoke product range for your cutting needs will do the job without neglecting traffic safety. – avoiding weed killers and without neglecting road safety.

Epoke mowers are adjustable, ensuring that only what needs cutting is actually cut. The flora is preserved, and the cut-off grass is divided into fine particles which will be part of nature's own cycle.

## MUTUAL ATTRIBUTES

To increase safety, all Epoke cutting heads are equipped with a brake valve.

A suspension plate ensures quick change of implements.

Quickly rotating, specially hardened flails divide grass and branches into fine particles with a peripheral speed of 55 m/sec.

Transmission with Taperlock pulleys ensures easy mounting.

## GRASS CUTTING HEAD

The cutting head (grass) is efficient for heavy duty jobs such as long, dry grass, bushes, branches etc. along country roads and slopes.

## BUSH CUTTING HEAD

The cutting head (bush) is efficient for clearing unwanted vegetation, e.g. branches, bushes and small trees along forest roads.

In order to maintain the high and uniform product standard Epoke® A/S has been certified by Lloyd's register to ISO 9001:2000.  
TLG B-3 approval - GS approval - E1 approval  
RoHS directive - WEEE directive

– the natural choice!
